- When using overseas ATMs, you will need your GAICA card and PIN.
- Please confirm PIN prior to your departure.
- If you have forgotten PIN, please contact GAICA Customer Service Desk. We will send you PIN in writing.
- Please be advised that your GAICA card cannot be used at ATMs in Japan.

STEP 1 Insert your GAICA card

Five main ways to insert a card into an ATM

The card is inserted face up.

The card is inserted upside down with the magnetic strip on the left.

The card is positioned face up, inserted in a slot parallel with the ground, and then pulled out immediately.

The card is positioned with its face towards you, inserted in the slot from above, and then pulled out immediately.

The magnetic strip on the back of the card is swiped vertically through the groove of the card reader from top to bottom.

STEP 2 Select language

Select language by pressing buttons that say “LANGUAGE” or “ENGLISH”.

STEP 3 Enter PIN

Enter the PIN of your GAICA card.

STEP 4 Select transaction

Select the transaction of “WITHDRAWAL”. Some ATM machines use names such as “GET CASH”, etc.

Do not select CASH ADVANCE which does not mean cash withdrawal.

STEP 5 Select the account type

Select “SAVING” when the instruction of “SELECT SOURCE ACCOUNT” appears on the screen.

STEP 6 Select the amount to be withdrawn

Select from fixed amounts on the screen and press the “ENTER”. You can enter the amount of funds you wish to withdraw by pressing the “OTHER”.

STEP 7 Take your GAICA card, your cash, and a transaction slip.

<Notes on using overseas ATMs>

- At the end of your transaction, some ATMs may ask you if you continue another transaction indicating the option button of “Continue transaction” etc. on the screen. In such cases, select “No” and be sure to check that the initial screen appears.
- Take a transaction slip with you.
- Be sure that you do not forget to take the withdrawn cash with you.
